Editor Asia Pacific Chapter Newsletter

CC Szeto is currently a Professor of Department of Medicine & Therapeutics, The Chinese University of Hong Kong, and a Honorary Consultant Physician of Prince of Wales Hospital, Hong Kong Hospital Authority. His research interests include peritoneal dialysis, especially peritoneal dialysis related infections, vascular disease and circulating bacterial fragment in renal failure, as well as glomerular diseases, especially urinary biomarkers and treatment of glomerulonephritis. Since 2004, his team has a number of influential papers on the natural history and treatment of peritoneal dialysis related infections. On behalf of the International Society for Peritoneal Dialysis, he is responsible for the preparation of the latest guidelines on the treatment and prevention of peritoneal dialysis related infections, which were published in 2011. He also received the John Maher Award from the International Society for Peritoneal Dialysis in 2012 as recognition of his work in this area.
